Scripts

- **Patient**

Interviewer: Hi happy to see you again

Patient: good to see you too

Interviewer: Shall we start the interview

Patient: Yeah sure

Interviewer: what do you think about the colors used in this prototype?

Patient: the color selection is good

Interviewer: are you able to click all the buttons available in this prototype

Patient: yes, all buttons are accessible

Interviewer: Are you able to submit the details?

Patient: Yes of course.

Interviewer: Great, what do you think about the font size?

Patient: good. but the font size is little big in some pages

Interviewer: does this app work faster

Patient: no, the speed is fine

Interviewer: Is the login page looks good?

Patient: yes, it's great

Interviewer: Nice, do you think there is a need to reset password?

Patient: I think reset password option is very important. I used to forget my password. So, if there is an option and when it sends a code to mobile number or email address it will be more useful.

Personally, I love this option.

Interviewer: Cool, are you able to search addresses?

Patient: Yeah, I am having the ability to search address from common areas but not small areas, but I am ok with this.

Interviewer: Okay, did you save any addresses?

Patient: Yes, I could save address using the options provided.

Interviewer: is the order status visible?

Patient: Yes, it is visible. The color used is favorable to denote each status type. It is very useful and can recognize each status easily.

Interviewer: Great, did the notification function work in this prototype?

Patient: Yes, it is working as normal mobile applications which we use regularly.

Interviewer: what happened when you clicked the new order button?

Patient: it navigated the new order page I was able to select the order type by clicking the buttons

Interviewer: is the feedback page user friendly?

Patient: yes, but it could be modified little bit

Interviewer: sure, do you think view order page contain all relevant information

Patient: yes, but I was unable to see the price of the medicine

Interviewer: are you okay with the interface of the payment?

Patient: yes. It's good. But my only concern is about the payment methods.

Interviewer: do you need more payment types?

Patient: yes. Can u add the master card transaction?

Interviewer: yes, sure. Do you like the additional option where you can save your daily members medical details?

Patient: yes, it is very useful to all my family members

Interviewer: what do you think about this prototype?

Patient: overall it's nice and user friendly. I think if there are some small changes, it'll be more user friendly.

Interviewer: does this prototype fulfill your needs?

Patient: yes, this prototype is totally satisfied

Interviewer: thank you for participating in this interview we will consider your feedback thank you so much

Patient: thank you

- **Pharmacy**

Interviewer: Hello, Good evening. We met last time through an interview regarding pharmacy app.

Pharmacist: Hello. Yes, I can remember. How is the work going on?

Interviewer: We have made the prototype with the suggestions we received. We need your feedback regarding the prototype.

Pharmacist: Yes, sure. I will use it and give the feedback.

Interviewer: What do you think about the security available in the app?

Pharmacist: The app is highly secured with the register, login, password reset options. The color selection for the app is good compared to the previous one.

Interviewer: Are the images of medicines clear?

Pharmacist: The images are very clear.

Interviewer: Are the buttons clickable when using the app?

Pharmacist: Yes, I can click the buttons.

Interviewer: Can you search for medicines?

Pharmacist: Yes, the search functionality is working properly.

Interviewer: Can you click all the links to navigate?

Pharmacist: Yes, I can navigate through the links easily.

Interviewer: What do you think about font size visibility?

Pharmacist: Most of the font size are good, but some looks too bigger.

Interviewer: Does the app cater to your needs?

Pharmacist: Yes. It caters my needs. It fulfils the requirements of the pharmacist.

Interviewer: Are you getting notifications at the proper time?

Pharmacist: Yes, I am getting on time.

Interviewer: Can you change the order status?

Pharmacist: Yes, I can change the status. When I change the status, it appears with different colors. It is very useful to identify each status separately.

Interviewer: What do you think about the prototype of the delivery home page?

Pharmacist: Actually its good. But can u add attractive image for the delivery home page.

Interviewer: Are the delivery pages containing all the details that you wanted?

Pharmacist: Yes, all the details are there. But can you change the tracking information page design and fonts.

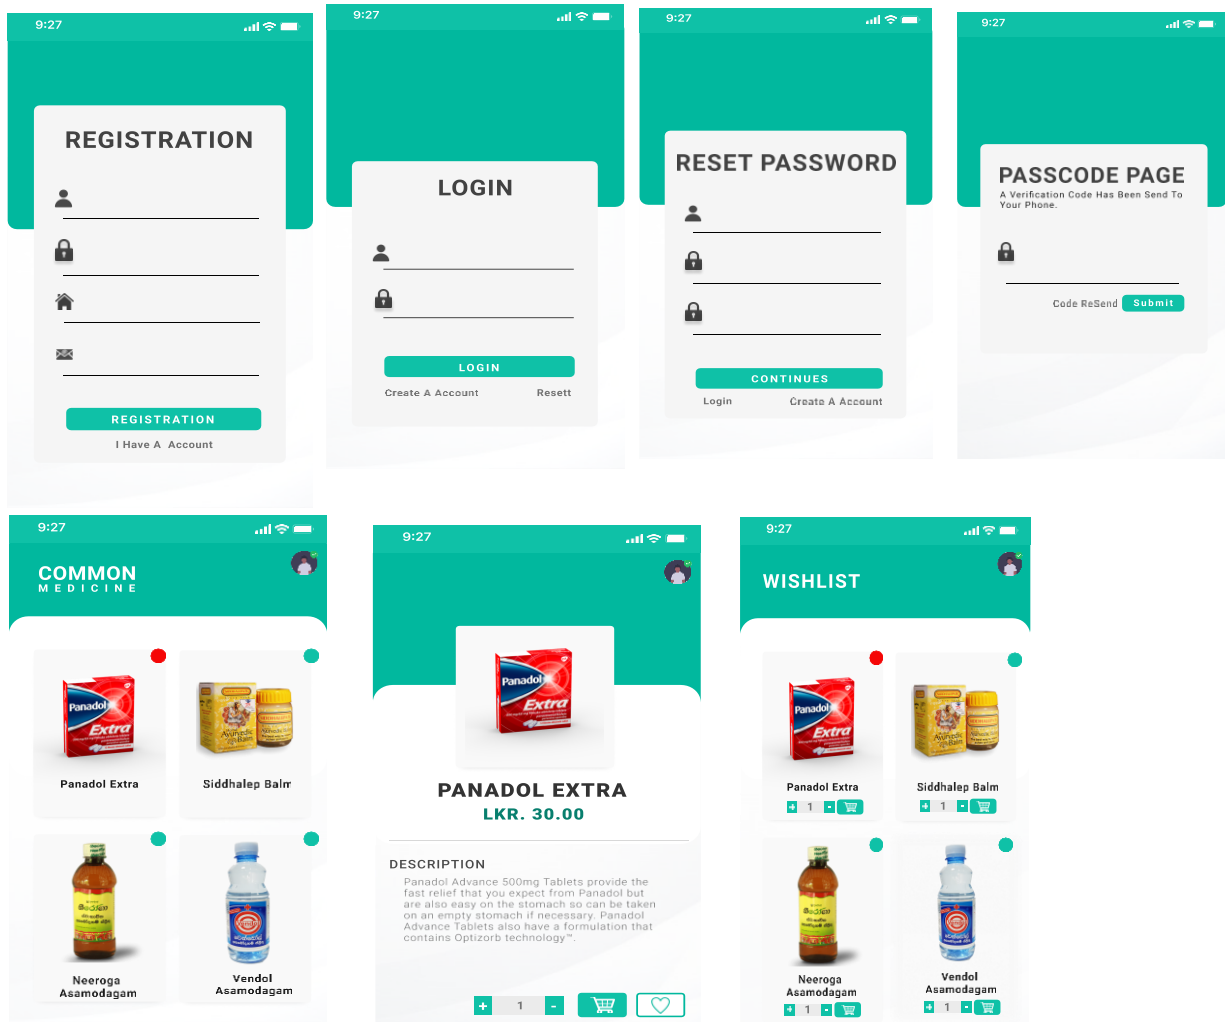

Interviewer: Yes, sure. I will change them. Thank you.

Pharmacist: You are welcome.
